Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/26/09 has been entered. In the amendment filed on 04/06/09, the following have occurred: Claims 1-6 and 8-14 are pending in the application and claims 1-6 and 8-14 have been amended. The amendment has necessitated the restriction requirement set forth in this office action.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6 drawn to a method for computerized trading comprising: receiving a selection of a trade implementation plug-in providing the plurality of trade parameters characteristics of the desired trade to the logic engine, determining by the trade implementation plug-in and the market specific plug-in in an order strategy based on the plurality of trade parameters, and providing order data based on the order strategy for display in real time on a graphical user interface., classified in class 705, subclass 37.

II. Claim 8-14, drawn to an apparatus for computerized trading comprising, a logic engine for processing trading orders, a trade implementation plug-in in the logic engine for implementing an order strategy, classified in class 705, subclass 35.

2. The inventions are distinct, each from the other because of the following reasons:

- Inventions I and II are related as sub combinations disclosed as usable together in a single combination. The sub combinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I relates to a method for computerized trading comprising: receiving a selection of a trade implementation plug-in providing the plurality of trade parameters characteristics of the desired trade to the logic engine, determining by the trade implementation plug-in and the market specific plug-in in an order strategy based on the plurality of trade parameters, and providing order data based on the order strategy for display in real time on a graphical user interface, whereas Invention II relates to an apparatus for computerized trading comprising, a logic engine for processing trading orders, a trade implementation plug-in in the logic engine for implementing an order strategy. Hence inventions I and II have recognized divergent scope and utility, and the search required for Group I is not required for Group II.

3. Since these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. Applicants are advised that reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
